

Workshop on Indirect Dark Matter Searches

Hamburg, 14-17 June 2011

indico.desy.de/event/3766

Organizers:

Torsten Bringmann
Wilfried Buchmüller
Laura Covi
Dieter Horns
Jörn Kersten
Andreas Ringwald
Günter Sigl

Invited Speakers:

Lars Bergström (OKC Stockholm)
Venya Berezhinsky (INFN Gran Sasso)
Jan Conrad (OKC Stockholm)*
Fiorenza Donato (U Torino)
Joakim Edsjö (OKC Stockholm)
Björn Herrmann (DESY Hamburg)
Alejandro Ibarra (TU München)
Roberto Inigo (SISSA Trieste)

Michael Kachelrieß (NTNU Trondheim)*
David Maurin (LPSC Grenoble)
Ben Moore (U Zürich)
Oleg Ruchayskiy (CERN)
Pierre Salati (LAPTH Annecy)
Andrew Strong (MPE Garching)
Piero Ullio (SISSA Trieste)
Simon White (MPA Garching)

* to be confirmed

Topics:

- Dark matter (sub)structure
- Propagation models
- Detection channels
- Multi-wavelength strategies
- Modifications of the annihilation rate

This workshop is intended to bring together experts in the field, both experimentalists and theorists, to discuss recent progress and prospects for the future in an informal atmosphere. Invited review talks during the morning will give a broad overview over the field and trigger the discussion; in the afternoon, there will be only one short session with contributed talks, leaving ample time for further informal discussions and collaborations.
