

DESY PHOTON SCIENCE USERS' MEETING 2016.

28-29 January 2016
at DESY in Hamburg, Germany

European XFEL Users' Meeting 2016
27 January 2016

We invite our users and collaborators to attend the DESY Photon Science Users' Meeting 2016. We are looking forward to welcoming interested scientists from many different disciplines for discussions of the current and future research at the DESY light sources:

- > **PETRA III**
- > **FLASH**

and research performed at DORIS III, which was shut down in 2012. This unique combination of light sources in the Hamburg region will be complemented by the forthcoming European XFEL.

Topics to be covered at the Users' Meeting include a soft X-ray session featuring FLASH experiments on Thursday, in conjunction with the European XFEL Users' Meeting, and news from the photon science activities, research highlights, and a report from the User Committee on Friday. A joint poster session will take place on Friday afternoon accompanied by a vendor exhibition.

Registration is required, especially for poster contributions, until 15 December 2015.
