

HASYLAB USERS' MEETING 2009.

January 30, 2009
at DESY in Hamburg, Germany

We invite our users and collaborators to attend the HASYLAB Users' Meeting 2009, and are looking forward to welcoming interested scientists from many different disciplines for discussions of the current and future research at the DESY light sources:

- > **DORIS III**
- > **PETRA III**
- > **FLASH**

The forthcoming European X-ray laser XFEL will complement the unique range of light sources in the Hamburg region.

There will be oral presentations, news from the photon science activities at DESY, research highlights, a report from the HASYLAB User Committee, and a poster session. The users' meeting will be preceded by satellite meetings on special topics on Thursday, January 29.

The poster session will take place in the new PETRA III experimental hall accompanied by a vendor exhibition.

Registration is required, especially for poster submissions.
