Contribution ID: **66** Type: **On-site project**

Silicon Sensor Testing

We offer a project related to silicon sensor testing. The student will get involved in the CMS Outer Tracker Module assembly and testing and/or the evaluation of silicon test structures.

Field

B3: Development of experimental particle physics equipment (hardware-oriented)

DESY Place

Hamburg

DESY Division

FH

DESY Group

CMS

Special Qualifications:

C++ knowledge would be an asset

Primary authors: NUERNBERG, Andreas (CMS (CMS Fachgruppe Detektor)); RASTORGUEV, Daniil (CMS (CMS Fachgruppe Detektor))
