

LHC-D workshop 2008: QCD and electroweak physics

Tuesday 3 June 2008

Tuesday afternoon - Lecture Room 16-G-05 (13:30 - 18:00)

time	[id] title	presenter
13:30	[3] Z+jet calibration with the CMS experiment	VOLKER BUEGE
14:00	[4] Comparison of event structures in W/Z+jets events	MARISA SANDHOFF
14:30	[5] Electroweak Corrections to W hadroproduction	ALEXANDER MUECK
15:00	[6] Measurement of the Z+jets cross section (electron and muon channel) in ATLAS	BLUMENSCHN, Ulla
15:30	coffee break	
16:00	[10] Multi-leg one loop amplitudes from tree amplitudes	ZOLTAN KUNSZT
16:30	[9] Blackhat: Implementation of unitarity cut method for one-loop amplitudes	DANIEL MAITRE
17:00	[8] Jet size dependence of resonance reconstruction	BENJAMIN KLEIN
17:30	[7] Inclusive jets at 10 TeV	ANDREAS OEHLER
