

# Advances in Computational Particle Physics

## Thursday 18 September 2014

### Project C1 (15:00 - 16:45)

time	[id] title	presenter
15:00	[59] Effective Theories for QCD with Heavy Quarks and lattice QCD	SOMMER, Rainer
15:55	[60] Soft-collinear factorization in B decays	BENEKE, Martin
16:20	[61] Non-leptonic B-decays at NNLO: Techniques and phenomenology	HUBER, Tobias
