

Non-Conformities (NCs)

session outlook by
Elmar Vogel

Main objectives of the "NCs" session

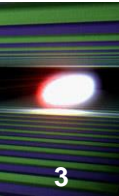

- impact on testing
- impact on operation
- measures for avoidance

treated in [previous session](#) "String & Module Assembly"

- impact on module assembly by Olivier Napoly

Overview

- Jacek Swierblewski on impact of NCs on AMTF tests
- Wolf-Dietrich Möller on NCs at power couplers
- Lutz Lilje on NCs at cavity tuners
- Jacek Swierblewski and Elmar Vogel on "IPA analysis"

treated in [subsequent session](#) "Module Repair Work"

- serious NCs at process pipe and beam vacuum

here, [we skip](#)

- NCs found at AMTF incoming inspection not affecting the AMTF testing time (e.g. loose screws, to be tightened)
