

Yukawa couplings for intersecting D-branes on non-factorisable tori

Wednesday 18 March 2015 16:20 (20 minutes)

I will explain how compute Yukawa couplings on a non-factorisable six-torus in the presence of intersecting D6-branes. The talk is based on publication arXiv:1412.3645.

Presenter: Mr LIYANAGE, Christoph (Bethe Center for Theoretical Physics)
