30.03.2015 / HistFitter tutorial @ DESY

Yesterday:

- Basic fits.
- More complicated fits.
- Presentation techniques.
- Hypothesis tests.

Today: Advanced tutorial.

- Using asymmetric errors with Minos.
- Systematic uncertainties in more detail.
- Understanding the upper limit scans and possible manual debugging.
- Rebuilding fits in '-p'.
- ...

- Think of paying the DESY hostel during the first coffee break if you stayed there.
- I still have few receipts.
