

PIER Graduate Week 2015

Interdisciplinary lectures and workshops
for PhD students

National and international experts offer a wide range of introductory lectures and in-depth focus courses in the PIER research fields

- Particle and Astroparticle Physics
- Nanoscience
- Photon Science
- Infection and Structural Biology

Extras

- Scientific colloquium
- Soft skills workshops
- Industry talk
- Poster session and poster prize
- BBQ

5–8 Oct 2015

CFEL, Bahrenfeld Campus, Hamburg

Programme and registration

www.pier-hamburg.de/graduateweek2015

The PIER Graduate Week addresses PhD students, MSc students and interested scientists.
Registration deadline: **1 September 2015**

Organising Committee DESY and Universität Hamburg

Robert Blick
Matthias Kreuzeder
Jochen Küpper
Jan Louis
Markus Perbandt
Robin Santra
Mirko Siemssen

Speakers

Nicole Fischer

University Medical Center
Hamburg-Eppendorf, Germany

Matthias Kadler

University of Würzburg, Germany

Heiner Linke

Lund University, Nanometer Structure
Consortium, Sweden

César Muñoz-Fontela

Heinrich-Pette-Institut, Hamburg

Michael Otto

National Institute of Allergy
and Infectious Diseases, USA

Thomas Pietschmann

Institute of Experimental Virology,
Medical School Hannover & Helmholtz
Centre for Infection Research, Germany

Fabio Pistolesi

Université de Bordeaux, France

Addy Pross

Ben Gurion University, Israel &
NYU Shanghai, China

Guillermo Jenaro Rabadan

Airbus Operations GmbH,
Hamburg, Germany

Ian Robinson

London Centre for Nanotechnology, UK

Holger Rohde

University Medical Center
Hamburg-Eppendorf, Germany

Robin Santra

DESY & Universität Hamburg, Germany

Elke Scheer

Mesoscopic Systems Group,
University of Konstanz, Germany

Bernhard Schmidt

DESY, Hamburg, Germany

Andreas Schönle

Abberior Instruments GmbH,
Göttingen, Germany

Eva Weig

Nanomechanics Group,
University of Konstanz, Germany
