

Speed Poster: Realizing All-Optical Free-Electron Lasers with Traveling-Wave Thomson-Scattering

Wednesday 15 July 2015 16:01 (3 minutes)

We show how all-optical free-electron lasers (OFELs) from EUV to the X-ray range can be realized using existing high-power lasers and electron accelerators.

Primary authors: Dr DEBUS, Alexander (HZDR); Mr STEINIGER, Klaus (HZDR)

Co-authors: Dr IRMAN, Arie (HZDR); Dr JOCHMANN, Axel (HZDR); Dr ROESER, Fabian (HZDR); Dr BUSSMANN, Michael (HZDR); Mr PAUSCH, Richard (HZDR); Prof. SCHRAMM, Ulrich (HZDR)

Presenter: Dr DEBUS, Alexander (HZDR)

Session Classification: Session 2 | Beam Dynamics & Photon Sources

Track Classification: Session 2 | Beam Dynamics & Photon Sources
