

# XXIV International Workshop on Deep-Inelastic Scattering and Related Subjects (DIS16)

Contribution ID: 209

Type: **not specified**

## TMDlib and TMDplotter

*Thursday, 14 April 2016 10:05 (12 minutes)*

We present the TMDlib project which contains a collection on transverse momentum dependent (TMD) parton distributions obtained in different frameworks. The TMDplotter is a web based plotting tool for TMD parton distributions as well as for collinear parton distributions included in LHAPDF. TMDplotter has additional plotting features, such as parton luminosities for collinear and TMD parton distributions.
