

# TTC Meeting at SLAC, December 1 - 4, 2015

## Tuesday 1 December 2015

**WG 3 : Cryomodule - Conveners: E. Harms (FNAL), H. Nakai (KEK), J. Preble (Jlab), S. Berry (CEA) (30 minutes Coffee Break incl.) - Building 48, Redwood ABCD (14:00 - 17:30)**

time	[id] title	presenter
14:00	[80] Cryomodule Development & Integration Experience: Introduction	HARMS, Elvin Prof. NAKAI, Hirotaka PREBLE, Joe Mr BERRY, Stéphane
14:10	[81] Cryomodule Development & Integration Experience: Cryomodule Development for C-ADS Injector I	GE, Rui
14:25	[82] Cryomodule Development & Integration Experience: Essential factors for improving reliability in cryomodule assembly	TRUBLET, thierry
14:40	[83] Cryomodule Development & Integration Experience: Horizontal Tests in a Vertical Cryostat for qualifying ESS high-Beta dressed cavities	PATTALWAR, Shrikan
14:55	[84] Cryomodule Development & Integration Experience: Discussion (all)	
15:15	[85] Cryomodule Performance including Degradation: Ongoing measurements cavity results in STF cryomodules	YAMAMOTO, Kirk
15:45	[87] Cryomodule Performance including Degradation: Cause of performance degradation in Linac operation at SNS	Mr MAMMOSSER, John
16:00	[88] Cryomodule Performance including Degradation: Clean room assembly process vs. XFEL cryomodule performances	Mr BERRY, Stéphane
16:15	[89] Cryomodule Performance including Degradation: Comparison of Cavity Performance in XFEL Cryomodules	Dr WALKER, Nicholas
16:30	[90] Cryomodule Performance including Degradation: Discussion (all)
