

LHC-D workshop 2006: QCD and electroweak physics

Monday 16 October 2006

Overview - Sem 4a/b (14:00 - 17:10)

time	[id] title	presenter
14:00	[3] Opening	JUNG, Hannes MEDINNIS, Michael
14:10	[4] Multiple Interactions and underlying event structure at LHC	BARTELS, Jochen
14:45	[5] Hadronisation and initial and final state effects at LHC	GUSTAFSON, Gosta
15:20	Coffee	
15:50	[7] Structure functions and parton densities for LHC	MITOV, Alexander
16:25	[8] Where HERA experience can help for LHC	RISLER, Christiane
