

# Summer student 2015 @ DESY, Zeuthen

## Wednesday 9 September 2015

### Final Students reports (10:00 - 12:00)

time	[id] title	presenter
10:00	[46] Final students reports- Introduction - Gernot Maier	
10:05	[47] Koßagk, Sophie: Study of continuous electron identification with the ATLAS-Detector	
10:20	[48] Kourlitis, Evangelos: Theoretical uncertainties on fiducial acceptance of WW production in association with 0 or 1 jet	
10:35	[49] Hormigos Feliu, Carla: Influence of the geomagnetic field on gamma/hadron separation in Cherenkov telescopes	
10:50	[50] Kieokaew, Rungployphan: Galactic Dark Matter Subhalos: The Case of Decay.	
11:05	Break	
11:15	[51] Tuci, Giulia: Gamma-ray burst observation with the Fermi-LAT and the expectations for CTA	
11:30	[52] Batziou, Eirini: Study of the Ice Anisotropy with IceCube Flasher Data of 2015	
11:45	[53] Block, Fabian: A study to the direction reconstruction" vom IceCube Experiment
