

## **New developments and designs for MTCA.4 by eicSys**

*Wednesday, 9 December 2015 14:30 (15 minutes)*

eicSys is a license partner for some Boards developed by DESY. Additional to these boards eicSys developed new boards for MTCA.4 and increased the product portfolio for MTCA.4 application. The reason for the eicSys product expansion is to bring MTCA.4 closer to industry requirements with high end performance.

### **Summary**

The user community have more prospects to build systems with the MTCA.4 technology

**Primary author:** Mr FIX, Friedrich (Eicsys Embedded Integrated Control Systems)

**Presenter:** Mr FIX, Friedrich (Eicsys Embedded Integrated Control Systems)

**Session Classification:** Session 3
