

Strip CMOS progress meeting, Introduction, 2015-10-27

Have several things to mention:

- Had another CMOS module meeting last Tuesday.
- Our meeting cadence has us meeting on Nov 10 and 24, skipping AUW.
- Need to find time to discuss CHESS-2 testing plans. Interested parties are SLAC/Oxford/UCSC/your-name-here. (Thanks Jaya John and Todd for raising the question!) There is a doodle poll for pre-AUW meeting:
<http://doodle.com/poll/d3t5qd2r5hhrv7hd>
Please vote if you are interested. Current best time is Mon, Nov 2 17:00 CERN time
- A reminder: There will be a meeting on charge collection simulation for ITK on Wednesday at 14:30 CERN time.
- A reminder: We'll have CHESS-2-TJ review on Thursday at 16:00 CERN time: <https://indico.desy.de/conferenceDisplay.py?confId=13435> .
- We have several papers being written with deadlines as short as the end of this week (TWEPP-overview, Hiroshima-overview, Hiroshima-amplifiers, CCE from Ljubljana). → Need to make a common acknowledgements section. Please send us your required wording ASAP.
