

The CREMLIN Project

The Workpackage 2

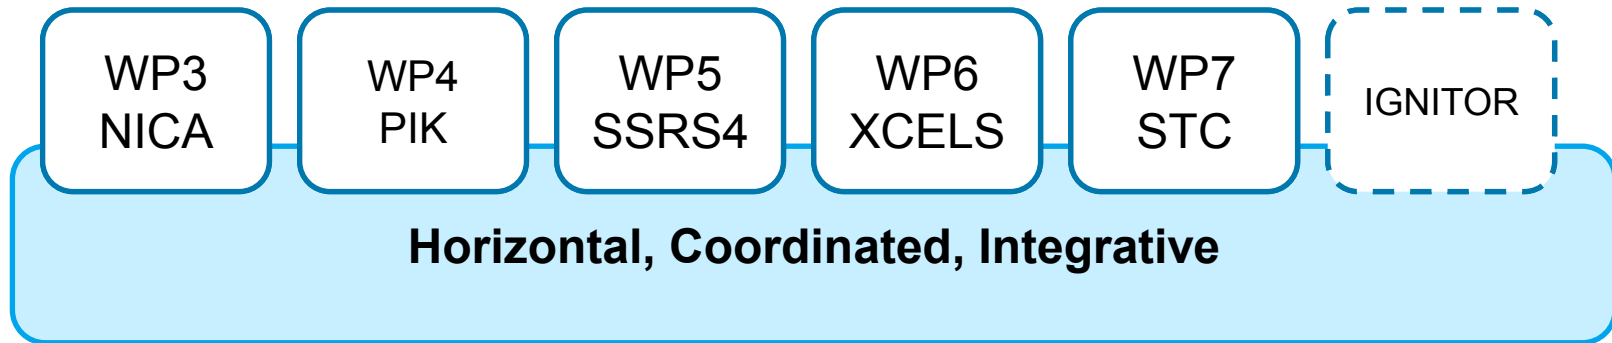

HORIZON 2020

Frank Lehner

Moscow, 6-7 October 2015

Workpackage 2

Lead partners: DESY, NRC KI

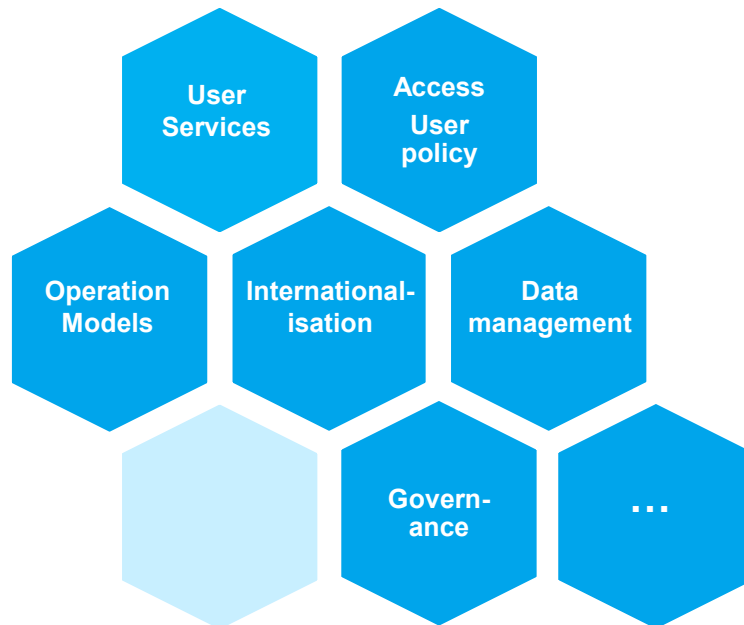

- > ensure integrated approach on cross-topical issues in thematic work packages;
- > coordinate information exchange, project findings
- > strengthen science policy interface & interactions with stakeholders
- > This is a collaborative and concerted effort

The Tasks of WP2

➤ Task 1: Horizontal integration and support

- Access, share and exchange project information, findings, knowledge
- Exploit synergies, develop best practice on cross-topical issues
- Develop a set of recommendations & best practice guidelines
- Workshops, expert round tables, ...

The Tasks of WP2

- Task 2: Support to science-policy interface regarding EU-Russian Federation cooperation on megascience projects
 - provide targeted and knowledge-based input & policy briefs on megascience projects & cooperation areas
 - establish links to ESFRI working groups and to landscape analysis & roadmap processes
 - prepare solid ground to launch EU integrating activities (transnational access of users, networking and joint research)
 - draws heavily from work/findings done in thematic WPs
 - supported by an external expert adviser (Uwe Meyer)
