

# **Hadronic Final States and Parton Density Functions**

## **Report of Contributions**

Contribution ID: 0

Type: **not specified**

## **Non-sudakov formfactor in Constrained MC – upgrade to full CCFM**

*Wednesday 25 October 2006 14:00 (30 minutes)*

**Presenter:** JADACH, Stanislaw

**Session Classification:** Theoretical Discussions:

Contribution ID: 1

Type: **not specified**

## **Towards new MC(QCD+EW) for W/Z@LHC and DIS**

*Wednesday 25 October 2006 10:00 (30 minutes)*

**Presenter:** JADACH, Stanislaw

**Session Classification:** Theoretical Discussions:

Contribution ID: 2

Type: **not specified**

## **Markovian Monte Carlo solutions of the NLO QCD evolution equations**

*Wednesday 25 October 2006 09:30 (30 minutes)*

**Presenter:** PLACZEK, Wieslaw

**Session Classification:** Theoretical Discussions:

Contribution ID: 3

Type: **not specified**

## Testing Markovian Monte Carlo with $\alpha(k^T)$

*Wednesday 25 October 2006 09:00 (30 minutes)*

**Presenter:** SKRZYPEK, Maciej

**Session Classification:** Theoretical Discussions:

Contribution ID: 4

Type: **not specified**

## **QED PHOTOS an instructive example for QCD?**

*Wednesday 25 October 2006 15:00 (30 minutes)*

**Presenter:** WAS, Zbigniew

**Session Classification:** Theoretical Discussions:

Contribution ID: 5

Type: **not specified**

## **Propagating parameter variations in the parton shower MC**

*Wednesday 25 October 2006 12:00 (30 minutes)*

**Presenter:** STEPHENS, Phil

**Session Classification:** Theoretical Discussions:

Contribution ID: 6

Type: **not specified**

## Small-x Dipole Evolution Beyond the Large $N_c$ Limit

*Wednesday 25 October 2006 11:00 (45 minutes)*

**Presenter:** AVSAR, Emil

**Session Classification:** Theoretical Discussions:

Contribution ID: 7

Type: **not specified**

## Model of PDF with kT ordering

*Wednesday 25 October 2006 14:30 (30 minutes)*

**Presenter:** SAWICKI, Pawel

**Session Classification:** Theoretical Discussions:

Contribution ID: 8

Type: **not specified**

## Fitting PDFs using Markovian MC

*Wednesday 25 October 2006 15:45 (30 minutes)*

**Presenter:** STOKLOSA, Przemyslaw

**Session Classification:** Theoretical Discussions:

Contribution ID: 9

Type: **not specified**

## MC@NLO for HERA

*Wednesday 25 October 2006 16:15 (30 minutes)*

**Presenter:** TOLL, Tobias

**Session Classification:** Theoretical Discussions:

Contribution ID: **10**

Type: **not specified**

## **F2s possibilities (discussion)**

*Thursday 26 October 2006 09:00 (30 minutes)*

**Presenter:** SOPICKI, Pawel

**Session Classification:** Experimental Discussions

Contribution ID: **11**

Type: **not specified**

## **Strange particle production: status and discussion**

*Thursday 26 October 2006 09:30 (30 minutes)*

**Presenter:** FALKIEWICZ, Anna

**Session Classification:** Experimental Discussions

Contribution ID: 12

Type: **not specified**

## **Multiple interactions: preliminary studies on dispersion and correlations**

*Thursday 26 October 2006 10:15 (30 minutes)*

**Presenter:** TURNAU, Jacek

**Session Classification:** Experimental Discussions

Contribution ID: 13

Type: **not specified**

## Multiple interactions in photoproduction

*Thursday 26 October 2006 10:45 (30 minutes)*

**Presenter:** MARTI, Lluís

**Session Classification:** Experimental Discussions

Contribution ID: 14

Type: **not specified**

## Multiple Interactions in proton-proton

*Thursday 26 October 2006 11:15 (30 minutes)*

**Presenter:** DEAK, Michal

**Session Classification:** Experimental Discussions

Contribution ID: 15

Type: **not specified**

## Forward jets in charm gamma-p

*Thursday 26 October 2006 11:45 (30 minutes)*

**Presenter:** STAYKOVA, Zlatka

**Session Classification:** Experimental Discussions

Contribution ID: **16**

Type: **not specified**

## **Fits of uPDFs**

*Thursday 26 October 2006 12:15 (30 minutes)*

**Presenter:** CHOLEWA, Axel

**Session Classification:** Experimental Discussions

Contribution ID: 17

Type: **not specified**

## **Diffraction parton distributions from the analysis with higher twist**

*Wednesday 25 October 2006 16:45 (30 minutes)*

**Presenter:** LUSZCZAK, Agnieszka

**Session Classification:** Theoretical Discussions:
