

# **Belle II Collaborative Services @DESY**

Thomas Kuhr

08.03.2016

# Introduction

---

- It is decided to move the Belle II collaborative services to DESY
  - Hard deadline this summer
- A lot of work has already been done by DESY colleagues
- Good basis to look at the details of the migration
  - Small team of DESY/Belle II experts for each service
  - Kickoff meeting for those teams

# Teams

---

- **DNS:** Andreas Gellrich, Takanori Hara
- **Member database, authentication:** Thorsten Kluever, Thomas Kuhr, Chris Hearty
- **External/internal web page:** Renate Roude, Takanori Hara/Thomas Kuhr (not including page for general public)
- **Wiki:** Bastian Vennemann, Markus Prim, Thomas Kuhr
- **Issue tracker:** Bastian Vennemann, Thomas Kuhr
- **Code repository/browser:** Oliver Frost, Thomas Kuhr
- **Buildbot:** Andreas Gellrich, Thomas Kuhr
- **Service mails:** Takanori Hara, Thomas Kuhr
- **Mailing lists:** Dirk Jahnke, Johannes Grygier, Takanori Hara, Thomas Kuhr
- **Indico:** Marcus Dramburg, Takanori Hara
- **Invenio:** Florian Schwennsen, Phill Urquijo
- **Backup, service recovery, monitoring:** Andreas Gellrich, Thomas Kuhr

# Migration Plan

---

To be defined and documented:

- Technical details of migration procedure
- Estimated schedule/effort
- Potential issues and mitigation strategies

In addition for migration to another tool:

- Comparison of features of both tools
  - In particular: are there any features used currently that are not provided by the new tool
- Detailed procedure for the conversion of content
- Procedure to verify that the conversion was successful
- Plan B if migration is not possible or wanted

# Next Steps

---

- Teams get in contact and start their work
- Add further experts if needed
- Document migration plans on twiki or confluence
- Meet again in two or four weeks to review and coordinate migration plans?
