

LLRF system installation for the European XFEL

Wednesday 7 December 2016 12:00 (15 minutes)

This contribution presents an overview of the complete low level radio frequency system (LLRF) installation in the European x-ray free electron laser (E-XFEL). The focus is on the MicroTCA.4-based LLRF system architecture, testing and preliminary results. Some performance results of the commissioned XFEL injector will also be presented.
