

B2CS: Status & Next Steps

Andreas Gellrich
Daniel Knittel
DESY IT

22 Sep 2016, DESY

> User registration

- Membership in VOMS or in the members list required
- Password change needed within 5 days
- Groups to be used in Jira were built (b2mon, b2ddm, b2pnnl)
- Mail forward can only be changed via PEM in registry (admins only)
- PEMs were corrected of old and reactivated accounts

> Members database

- Further discussion needed

> Wiki (*confluence*)

- Cleanup continues (with webdav client only string exchange is possible)
- feedback on the various webs is requested

> Mailing list service

- Belle II list masters can manage lists themselves

> Agenda service (*indico*)

- ?

> Issue tracker (*jira*) / Code repository / browser (*stash* / *bamboo*)

- *Confluence/Jira/Stash* only know DESY addresses (Oliver.Frost@desy.de)
- (this is a general problem also elsewhere which will be solved apparently)
- In any case users may type in arbitrary names / addresses ...
- hooks may avoid such problems (there is a security issue for scripts though)
- Also true for '*latex*'
