

Loops and Legs in Quantum Field Theory

Monday 30 April 2018

Parallel 2 (14:30 - 16:00)

time	[id] title	presenter
14:30	[45] Pentagon functions for non-planar scattering amplitudes	Prof. HENN, Johannes
15:00	[28] Progress in the calculation of the complete set of two-loop five-point master integrals	Dr PAPADOPOULOS, Konstantinos
15:30	[91] Planar Two-Loop Five-Gluon Amplitudes from Numerical Unitarity	Dr PAGE, Ben

Parallel 2 (16:30 - 18:30)

time	[id] title	presenter
16:30	[20] The rho-parameter at three loops and elliptic functions	DE FREITAS, Abilio
17:00	[23] Some 4-loop results on QCD cusp anomalous dimension	Dr GROZIN, Andrey
17:30	[71] Numerical evaluation of two-loop amplitudes	Mr JAHN, Stephan
18:00	[30] Four gluon Scattering Amplitude at Three Loops in QCD	Dr AHMED, Taushif
