

# RREPS-17

## Monday, 18 September 2017

**Applications of Monochromatic X-Ray, Y-Ray and Terahertz Beams Produced at Electron Accelerators - SR 4ab (14:40 - 16:00)**

time	[id] title	presenter
14:40	[10] The Single-Crystal Hard X-ray Self-Seeding project at the European XFEL / G. Geloni	
15:10	[11] Recent Research Activities with High-Peak-Current Electron Bunch and Bunch Trains at THU/ Lixin Yan	
15:40	[12] Some new possibilities for diagnostics of ultra-relativistic beams / A. Shchagin
