

The Mount Elbrus Conference from Deep Underground up to the Sky

Tuesday 12 September 2017

Multi-messenger astrophysics - Part I (09:15 - 10:55)

time	[id] title	presenter
09:15	[15] Baksan Neutrino Observatory: 50th anniversary - history, current state and prospects	PETKOV, Valery
09:40	[63] Baksan Large Volume Scintillation Detector for neutrino astrophysics and geophysics: present status	GAVRIN, Vladimir
10:05	[16] Multi-messenger astronomy: the alert observations of gamma-ray bursts afterglows, supernovae and search for optical counterparts to neutrino events and gravitational waves	VLASYUK, Valery V. SOKOLOV, Vladimir V.
10:30	[17] INASAN and BNO - first steps to multi-messenger astronomy	SAVANOV, Igor
