

Fundamental physics in the cosmos: The early, the large and the dark Universe

Wednesday 27 September 2017

Parallel Session: Cosmology & Astroparticle Physics - Dark Matter - Seminar room 4a (16:05 - 17:45)

-Conveners: Enrico Morgante; Bjoern Garbrecht

time	[id] title	presenter
16:05	[23] Dark matter constraints from antiprotons in the light of AMS-02	Dr CUOCO, Alessandro
16:22	[51] Searching for WIMPs with charged cosmic rays	Dr WINKLER, Martin
16:39	[53] Constraining particle dark matter using local galaxy distribution	ISHIWATA, Koji
16:56	[82] Testing the CDM paradigm with the CMB	Dr KOPP, Michael
17:13	[54] Cosmological attractors and universal predictions	FUMAGALLI, Jacopo
