

Fundamental physics in the cosmos: The early, the large and the dark Universe

Wednesday 27 September 2017

Parallel Session: Particle Phenomenology - 1a - Seminar room 2 (14:00 - 15:30)

-Conveners: Juergen Reuter

time	[id] title	presenter
14:00	[2] First SUSY results with GAMBIT	KVELLESTAD, Anders
14:17	[5] Precise Higgs mass calculations in supersymmetry	Dr VOIGT, Alexander
14:34	[28] Sensitivity of the triple Higgs coupling to heavy sterile neutrinos	Dr WEILAND, Cedric
14:51	[61] Quantifying CP-violation in the 2HDM	WITTBRODT, Jonas
15:08	[62] A global view on the Higgs self-coupling	Mr VANTALON, Thibaud
