

FUTURE OPPORTUNITIES FOR TEST BEAMS AT DESY - 2017

- The future of the DESY II test beam facility has to be prepared now
 - Accelerator upgrades (Petra IV)?
 - Additional beam line?
 - Necessary infrastructure upgrades
- Definition of a clear science case for the facility and upgrades necessary
 - Input from test beam user communities essential to define requirements
 - Invited speakers from the user communities, time for additional contributions
- Outcome of the workshop will be summarized in a white paper
 - First draft by the test beam team after this workshop
 - Will be circulated for comments to the user communities
 - Publication as DESY report
 - Will be used to inform the directorate about necessary upgrades and extensions

- Thursday:
 - Status and possible developments @ DESY and the test beam facility
 - User communities presentations
 - Short summary and discussion
 - Dinner (more discussion)
- Friday
 - User communities presentations
 - Discussion

- Conference dinner: “Zum alten Lotsenhaus” (<http://www.zum-alten-lotsenhaus.de>)
- A bus will be waiting 17:50h in front of building 1, departure 18:00h
- Return individually
