

6th Beam Telescopes and Test Beams Workshop 2018

Contribution ID: 4

Type: **not specified**

Doubling the Frascati INFN Beam Test Facility (BTF)

Tuesday, 16 January 2018 17:00 (20 minutes)

The BTF of the DAΦNE accelerator complex, in the Frascati National Laboratory of the INFN, is in operation since 2004 with an average of 200 beam-days and 25 groups/year. The doubling of the beam-line will allow increasing the access capability, as well as hosting long-term experiments in parallel with the test-beam activities. The activities ongoing for the upgrade of the facility are described

Primary author: Dr DI GIULIO, Claudio (INFN-LNF)
