

PICMG Specifications for Advanced Research Projects - A Brief History In Time

Wednesday 6 December 2017 11:00 (30 minutes)

The topic will explore a brief background of PICMG and specifications related to Physics/Research. MicroTCA/MicroTCA.4 applications in various industries will be discussed. The talk includes upcoming efforts in the 40GbE MicroTCA committee and future specification concepts for PICMG, including IoT applications. The resources available for MicroTCA.4 for Physics and other PICMG benefits will be covered.
