

## Complete MRF Timing System on MicroTCA.4 Platform

*Wednesday 6 December 2017 16:45 (15 minutes)*

The MRF timing system has been around since 1999 on various form factors starting with VME. A timing receiver (Event Receiver) has been available in the MicroTCA.4 form factor for a couple of years. This presentation gives a short introduction to the MRF timing system and shows some details of an Event Master currently in development for the MicroTCA.4 platform. With this new product a complete MRF timing system may be built on the MicroTCA.4 platform.
