

5th International Solar Neutrino Conference

Monday 11 June 2018 - Friday 15 June 2018

TU Dresden

Scientific Programme

The **focus** of this conference is on **solar neutrino physics**.

The conference is going to cover the following topics:

Solar models

Nuclear physics related to solar models, astrophysical S-factors

Solar neutrinos and helioseismology

Running and future solar neutrino experiments

Detection techniques

Neutrino oscillations, MSW effect

Solar neutrino flux time variations
