

# 11th Annual Meeting of the Helmholtz Alliance "Physics at the Terascale"

## Tuesday 28 November 2017

### B-physics - SR 1 (09:00 - 10:40)

-Conveners: Ami Rostomyan; Maiko Takahashi

| time  | [id] title                                                          | presenter               |
|-------|---------------------------------------------------------------------|-------------------------|
| 09:00 | [100] Flavor Theory 2017 plus (a primer)                            | Prof. HILLER, Gudrun    |
| 09:40 | [101] CKM Parameters: Present and Future                            | Dr BERNLOCHNER, Florian |
| 10:10 | [102] CP Violation Measurements at B-Factories and Hadron Colliders | KUHR, Thomas            |

### B-physics - SR 1 (11:00 - 12:40)

-Conveners: Ami Rostomyan; Maiko Takahashi

| time  | [id] title                                                  | presenter               |
|-------|-------------------------------------------------------------|-------------------------|
| 11:00 | [103] An overview of anomalies in rare B decay measurements | Dr SMITH, Eluned        |
| 11:30 | [104] Lepton flavour universality and rare B-meson decays   | Dr WEHLE, Simon         |
| 12:00 | [105] X, Y, Z and more exotic beasts                        | Dr PRENCIPE, Elisabetta |
