

# 11th Annual Meeting of the Helmholtz Alliance "Physics at the Terascale"

## Tuesday 28 November 2017

### Linear Collider Forum - Detectors and Machine R&D - SR 4b (14:00 - 16:35)

-Conveners: Sabine Riemann; Sabine Riemann; Frank Simon; Ivor Fleck; Gudrid Moortgat-Pick

time	[id] title	presenter
14:00	[189] A Large Area Strip Telescope and its use for the LCTPC	Mr KRÄMER, Uwe
14:25	[194] Particle Identification with the High Granularity TPC Readout ROPPERI	EINHAUS, Ulrich
14:50	[190] The energy deposition over the length of the ILC undulator	ALHARBI, Khaled
15:15	[191] Temperature distribution in the target for the undulator based ILC positron source	DIETRICH, Felix
15:40	[192] Target material tests at facilities in Hamburg	Prof. HILLERT, Wolfgang
