

1st Workshop for the Extreme Conditions Beamline at PETRA III

Tuesday 19 May 2009

Examples for Powder and Single Crystal Diffraction at simultaneous high-pressure and high/low-temperatures (continued)

(15:00 - 16:30)

time	[id] title	presenter
15:00	[24] Brillouin Scattering at High Pressures and Temperatures: Potential Applications at a 3rd Generation Synchrotron Source such as PETRA III	
15:45	[5] Plastic properties of mineral at high-pressure and –temperatures	Mr MERKEL, Sebastien
