

1st Workshop for the Extreme Conditions Beamline at PETRA III

Monday, 18 May 2009

Poster Session & Initial Meeting of the Technical Advisory Committee (18:30 - 19:00)

| time | [id] title | presenter |
|-------|---|--|
| 18:30 | [4] X-ray diffraction of weak scattering materials at megabar pressures | Dr EREMETS, Mikhail |
| 18:30 | [9] High-pressure crystallisation from solution: extending the search space for novel physical forms of "large small molecules" | Dr FABBIANI, Francesca |
| 18:30 | [15] Towards Mbar-pressures at deep Earth's interior representing samples - the challenge of new light source based high pressure techniques for process research of the next decade and beyond | Dr LATHE, Christian Dr MUELLER, Hans J. |
| 18:30 | [16] Ferroic materials at high pressures | Dr GRZECHNIK, Andrzej |
