

Session V (15:00 – 16:30) : Experimental applications and instrumentation

Moderator: W. Wurth

- Correlated Materials and Instrumentation
- Z. Hussain
- Time-resolved x-ray emission spectroscopy
- M. Beye
- Time-resolved photoemission experiments
- N. N.
- Thoughts on detectors for spectroscopy
- H. Graafsma
- Discussion

Session VI (16:45 – 18:15) : Instrumentation and facility performance (1)

Moderator: Z. Hussain

- Discussion on spectroscopy instrumentation (continued) and facility performance
- F. Sorgenfrei: Soft X-ray beam splitter

Session VII (09:00 – 11:00) : Required and desired facility performance (2)

Moderator: W. Wurth

- Summary of first two sessions – Z. Hussain
 - Continuation of discussion
-
