

PDF Group

Thomas Schörner-Sadenius
DESY DIR + MB + AZ
DESY (Hamburg), 4 May 2009

JUST A FEW POINTS

> At DESY: Johannes Blümlein, Sasha Glazov, Sven-Olaf Moch

- No additional manpower from DESY, no other groups connected (in contrast to MC and Statistics Tools groups).
- Some added value created – see presentations by Sven, Johannes, Sasha.

> Additional manpower needed?

- Alliance interested in “products” from the group: software, open source
→ difficult to achieve at satisfactory time scale with current manpower situation.
- Closer connection theory - experiment (HERA PDFs!!) desirable (implementation of procedures in the experiments, testing, documentation)?
→ also need for additional people?
