Stabilization systems for KATRIN experiment - Tuinzaal (09:00 - 10:20)

time	[id] title	presenter
09:00	[5] Gas injection system for ultra-stable pressure and composition at the KATRIN source	SCHLÖSSER, Magnus
09:20	[6] Temperature calibration and stabilisation in strong magnetic fields on the mK Level	JANSEN, Alexander
09:40	[7] Precision Stabilization of the 18.6kV Retardation Voltage in the KATRIN Electrostatic Spectrometer	WÜSTLING, Sascha
10:00	[19] Long-term stabilization and voltage reference at KATRIN	REST, Oliver
