

Session Program

4-6 Dec 2018

7th MicroTCA Workshop for Industry and Research

Session 3

DESY, CFEL
Building 99, Notkestraße 85, 22607 Hamburg

Wednesday 5 December

14:15

Session 3

Session | **Location:** DESY, CFEL, Building 99, Notkestraße 85, 22607 Hamburg

14:15-14:30 **Ivan Garcia - Overview of the IOxOS MicroTCA ecosystem**

14:30-14:45
Vollrath Dirksen - Up to 48 GigE-Vision Cameras benefitting from the MicroTCA architecture

14:45-15:00
Jan Marjanovic - MicroTCA Technology Lab at DESY: Summary of 1st Year Operations

15:00-15:15
Eric Breeding - MicroTCA Real-time Monitoring of Injection Kicker Magnets Performs Critical Interlock for High-Power Operation of the Spallation Neutron Source

15:15-15:30 **Jan-Erik Eklund - Digitizer control software for large installations**

15:30-15:45 **Karl Judex - New Solutions for Leading Edge Data Aquisition**

15:45
