

Summary of DESY-CMS Physics Planning Meetings

- meeting among YIG, group leaders and supervisors
- goals:
 - discuss / agree on organizational matters
 - create coherence between various sub-groups doing physics
- frequency: about once per month, so far 3 meetings
- summary of issues discussed so far:
 1. student education / seminars:
 - Tuesday DESY seminars are mandatory for everyone
 - CMS students should participate and contribute to DESY student seminar:
 - expect one talk / year each
 - winter semester 09: still lots of space for LHC-related contributions.
 2. software / offline coordination:
 - Maria Aldaya kindly agreed to serve as DESY-CMS offline coordinator, i.e. contact person for questions related to computing, software and analysis by the DESY CMS (F)-group
 3. YIG physics goals / milestones :
 - presently producing short internal documents (~0.5 pages) for inter-communication: short and midterm goals / critical issues / list of people / open positions
