

# TTC 2019, TESLA Technology Collaboration

## Tuesday 5 February 2019

### **WG2 Session 1: Cold test diagnostics and novel processing - Room 2309 (11:00 - 12:30)**

-Conveners: Martina Martinello; Oliver Kugeler

| time  | [id] title   | presenter                        |
|-------|--|----------------------------------|
| 11:00 | [61] Introduction WG2  | MARTINELLO, Martina              |
| 11:10 | [62] Field emission study on cERL main linac cryomodule                                | UMEMORI, Kensei                  |
| 11:30 | [63] Field emission studies for ESS prototipe cryomodules and vertical test diagnostic | CENNI, Enrico<br>BERRY, stephane |
| 11:50 | [64] Plans for beam-loss and field-emission detection in LCLS-2                        | FISHER, Alan                     |
| 12:10 | [65] Overview on coupler protection  | POWERS, Tom                      |
| 12:20 | [103] SRF CAVITY R&D at SHINE  |                                  |
