

# Higgs CP analysis status

- Merijn-Andrea: working in mu-tau channel on 1-3 prong decay
- Andrea foresees collaboration with Teresa/Mareike on Ntuples
- 
- Fellow collaborators expected to join the effort:
  - 2 PhD students from India with Arun. Will spend 2 weeks at DESY
  - Alexis (senior postdoc?) and Connie (PhD student) from Princeton
- Tuesday: meeting to show DESY progress. Coordinate and streamline efforts
- First milestone: present a RECO distribution at spring Higgs-tau workshop
  - Likely 2017 dataset, Ntuples in better state
  - Analysis twiki:
