Development of MTCA.4-Based LLRF System at SSRF

Thursday 5 December 2019 15:00 (15 minutes)

Since we got the first MTCA.4 platform in 2014, MTCA.4-based Low Level RF system has been widely used in many linear accelerators at SSRF. This talk gives an introduction of all accelerator projects, the development of the software and the firmware, and also the performance of the LLRF system.

Primary author: Dr ZHANG, Junqiang (Shanghai Advanced Research Institute,CAS)

Presenter: Dr ZHANG, Junqiang (Shanghai Advanced Research Institute,CAS)

Session Classification: Session 7: Facility Status Reports
