

# *MC group meeting - 12 December 2010*

## *Announcements*

# *Announcements*

- Last week – Helmholtz Alliance mid-term evaluation. The DESY analysis center was very positively evaluated. The MC group had a poster (prepared and presented by Zoltan). (Uploaded on <http://www.terascale.de/mc> soon...)
- Last friday – yearly MC meeting in Karlsruhe. Hannes and Zoltan were on site. Minutes are in preparation. (Uploaded on <http://www.terascale.de/mc> soon...) Another meeting is planned already early next year on MC issues related to the first LHC data.
- This afternoon (Monday 7/12-2009): VTI seminar - Bryan Webber “QCD Radiative Effects in New Particle Searches” 15:30 seminar room 5
- Today is the last MC meeting this year. **The Agenda for spring 2010 is in preparation** – if you have **suggestions for speakers** or yourself want to give a talk (experimental or theory) please let us know.
- **Today's talk: Krzysztof Kutak, DESY – “Production of Forward Jets at LHC energies”**
