

Neutrino masses and Lepton flavor violation at the LHC

Wednesday 25 November 2009

Session 6 - Mensa Mehrzweckraum (11:20 - 13:00)

time	[id] title	presenter
11:20	[15] TeV scale see-saws from higher than d=5 effective operators	WINTER, Walter
11:55	[16] Properties and decay modes of scalars in an S3 symmetric model	LESER, Philipp
12:25	[17] Neutrinoless double beta decay and new physics at the LHC	PÄS, Heinrich
