

REF Advisory Board meeting

- Status of REF 2019:
 - report from organizing committee
 - finances ?
 - Agenda ?
 - Participants ?

- further issues ?

REF Advisory Board meeting: comments

- Comments from AD on REF 2019:
 - L. Favart:
 - invite different MC people (MadGraph, Sherpa, PowHeg,...) to convince them on the importance of the TMDs for the LHC physics and to discuss with them the possibility to use TMDs as a MC input.
 - E. Aschenhauer
 - MCs for EIC: there has been lately a lot of developments to integrate and study the feasibility of integrating TMDs in MC.

Further issues:

- Propose for future meetings to have possibility of remote participation to reduce CO2 footprint
 - needs proper equipment to allow discussions
- Approval of REF 2020 in Edinburgh ?
 - Organize AB meeting with organizers for REF 2020
