New Millepede area on the CAF

Frank Meier
PSI Paul Scherrer Institut and ETH Zürich

Dec 15, 2009

The new area...

A new area has been set up on the CAF for production grade alignment.

- ▶ The area can be found at `/afs/cern.ch/cms/CAF/CMSALCA/ALCA_TRACKERALIGN/MP/MPproduction`
- ▶ Has a list of alignments including a brief description of the intention
- ▶ This should become the only place for alignments which you want to use for presentations, creating new alignment objects and so on
- ▶ A TWiki page with instructions is available: `SWGuideMillepedeIIProductionEnvironment`
- ▶ Please use it extensively and give feedback

And thanks to Jula for testing the new area extensively.
