

DESY PHOTON SCIENCE USERS' MEETING 2020.

30-31 January 2020
at DESY in Hamburg, Germany

European XFEL Users' Meeting 2020
29-30 January 2020

We would like to invite our users and collaborators to attend the DESY Photon Science Users' Meeting 2020. Moreover we are looking forward to welcoming interested scientists from many different disciplines for discussions of the current and future research at the DESY light sources and the planned upgrades:

- > PETRA III
- > FLASH

This unique combination of light sources in the Hamburg region is complemented by the European XFEL.

Topics to be covered at the Users' Meeting include a soft X-ray session featuring FLASH experiments and several workshops on different research or beamline related topics on Thursday, news from the photon science activities, PETRA III research highlights, and a report from the User Committee on Friday.

A poster session will take place on Friday afternoon accompanied by a vendor exhibition.

Registration is required, especially for poster contributions, until 13 December 2019.
