

Computing & DESY Offline Items

DESY CMS Meeting November 23rd 2009

Christoph Wissing

Maria Aldaya

DESY

◆ CMSSW

- 3_3_x releases also built for SL5 (slc5-ia32_gcc434)
- production platform remains SL4 for 3_3_x
- for 3_4_x production platform should move to SL5
- Grid sites being prepared for SL5 installs

◆ CRAB

- Recommended for users still (works also on SL5 nodes):
SL4 clients with gLite3.1 (SL4) user interface(UI)
- Native SL5 builds are in preparation

◆ Phedex, ProdAgent ...

- Integration work is ongoing
- Most still using SL4 builds with gLite3.1 UI clients on SL5

D-CMS Analysis Support Group

- ◆ **Last FSP CMS meeting: We want an **analysis support group****
 - **Tasks include**
 - Document FSP-CMS specific procedures/setups for analyses: (e.g. dcms VOMS group, user storage, backup, data set requests...)
 - Collect/link to and update the site specific documentation for Aachen, Karlsruhe, DESY/UHH and the NAF
 - Support for computing problems that are unique to our local setups and document the correct channels for other requests
- ◆ **Members**
 - **Aachen: Matthias Edelhoff** Matthias.Edelhoff@physik.rwth-aachen.de
 - **Karlsruhe: Fedor Ratnikov** Fedor.Ratnikov@ekp.uni-karlsruhe.de
Daniel Martschei martschei@ekp.uni-karlsruhe.de
 - **U Hamburg: Christian Sander** christian.sander@desy.de
 - **DESY: Maria Aldaya** maria.aldaya@desy.de
- ◆ **Evolving documentation:**
 - <https://twiki.cern.ch/twiki/bin/view/CMS/GermanUsersComputingSupport>
